

# IMPACT REPORT *for* 2024

SHARING JESUS ON THE WORLD'S  
MOST STRATEGIC MISSION FIELD

JESUSONLINE  
MINISTRIES

# A Message from Executive Director

## Helmut Teichert

Two thousand years ago, Jesus commissioned His followers to share the gospel worldwide.

In the first century, Roman roads were crucial for the rapid spread of Christianity, allowing early Christians to travel more easily throughout the Roman Empire.

Today, two thousand years later, the Internet connects billions worldwide, creating a unique opportunity to share the gospel with those in need of Jesus' love, hope, and forgiveness. With two-thirds of the global population online, including rural Africa, the Internet is now the largest and most strategic mission field of our time.

We are living in an unprecedented time in history. Never has it been possible to reach so many people worldwide for Christ so quickly and with so little investment.

In 2024, we had over 24 million visits to JesusOnline's websites from people worldwide, who watched gospel videos and read about how to know Jesus personally.

Of those, 1.6 million people said they committed their lives to Christ. Specifically, 887,105 individuals indicated that they had received Christ, while 811,821 expressed that they had rededicated their lives to Him.

I invite you to read the testimonies on the following pages from people whose lives have been changed because of the ministry partners who have joined with us.

# Sharing the Love of Jesus in Hostile Lands

Sharing the Good News in hostile nations is challenging due to persecution, legal restrictions, and limited access to Christian resources.

However, with the use of the Internet, we can now reach people in hostile countries in the privacy and security of their own homes.

# JOM History

Dr. Bill Bright, founder of Campus Crusade for Christ (now CRU), had a passion to share the truth and grace of Jesus Christ worldwide. In 2003, he helped found what is now JesusOnline Ministries to carry out the vision of reaching the world for Christ.

What began as apologetic/evangelistic magazines became Internet websites in 2005. Since that time over 305 million visits from 190 countries have helped people discover Jesus Christ.

Many of those who have been reached are now sharing the gospel of Jesus in their own nations and villages.

# JOM Track Record

In recent years, JesusOnline's outreach has surged from 85,421 decisions to follow Christ in 2019 to 1,698,926 in 2024.

## JOM Vision

Our vision is to share the evidence-based gospel of Jesus with 1 billion people by the end of 2030, with 30 million of those people committing their lives to Christ.

For every **ONE DOLLAR** invested in outreach, **ONE PERSON** will, by God's grace, indicate they have decided to follow Christ.

Together we are making a greater difference for Christ's Kingdom.

**Come help us reach 1 billion people for Christ by 2030.**
