

For a Time Such as This Leaders and Missionaries Speak Out

“During my tenure as Director of the Lausanne Movement for World Evangelization, I had the privilege of working with mission organizations from countries in every region of the world. It has been especially encouraging to see the cost effective ability of Internet strategies to share the gospel worldwide, even in countries hostile to Christianity. I have explored the excellent work of JesusOnline Ministries first hand. God is blessing them with impressive and reliable gospel responses from people in over 200 countries and territories in 18 major languages.”

Dr. Doug Birdsall, Founder, Hope Rising

“Cutting edge use of technology, gospel truth shared freely with great clarity, dedication to discipleship follow up, and conscientious stewardship—this is Jesus Online Ministries! It’s a joy to partner with an organization that God is using to help people all over the world *come to* and *respond to* a correct understanding of the person and work of Jesus Christ.”

Nancy Brewer, Missions Director

“After working with Christian leaders in over 80 countries over the past 2 decades, I have come to appreciate that Internet ministry is a vital component to spreading the Gospel and is blazing new pathways for evangelism and discipleship. My friends at JesusOnline are sharing the Good News 24 hours a day globally through their Internet outreach. Their online strategy enables Christians, as never before, to share Jesus with people who otherwise are beyond our reach. In addition, the discipleship resources they are providing are very encouraging, timely, and effective.”

Mark Carver, International Director of Purpose Driven, Saddleback Church (Retired)

“JesusOnline is effectively using sound apologetic and evangelistic articles and videos to defend the historical claims of Jesus’ life, death and resurrection among people who are hungry for the TRUTH.”

Dr. Bert Harned, Discipleship Leader, Author

“The testimonials of those visitors encountering the Truth of Jesus through their websites demonstrate that the Gospel is going forward powerfully with full conviction and is bearing abundant fruit in the lives of thousands. James 1:18”

Pastor William Hawk

“Years ago, I became aware of JesusOnline Ministries. I was astonished to see how, for just 5 cents, they could help a person discover the truth about Jesus. It took me a nano-second to decide I wanted to get in on this eternal investment opportunity. I have been a consistent investor in JesusOnline Ministries ever since.”

Phil Wiegand, Businessman and Author

“Right now, we are caught up in a global wave of technology providing undreamed of opportunities to share Jesus everywhere. The question is “Are we catching the momentum?” JesusOnline in a proven technology pioneer riding this wave successfully, harnessing the power of Internet and mobile to share the gospel with people in Southeast Asia and across the 10/40 Window.”

Missionary, Southeast Asia (Name withheld for security)

“The disciples once asked Jesus, ‘Who then can be saved?’ Jesus answered, ‘With man it is impossible. But with God all things are possible.’” If Jesus can raise up stones to praise Him, it is no problem for Him to bring people to His feet through a Gospel message on a tiny screen in the palm of the hand.”

Pastor Randal Anderson

“I’ve had the privilege of working with JesusOnline as a film producer. I know first hand, that God is using their solid Internet content to bring people to salvation, to disciple them, and then help them share their experience with Jesus with their families and communities.”

Roman Jaquez, Founder, Compass Pictures

“JesusOnline Ministries is one of God’s instruments to meet confused, doubting and cynical people with true-truth supporting the claims of Jesus Christ. Standing behind this worthy effort is one of the best ways I know to give a solid foundation of reason and confidence in God’s great plan of redemption to all those who are honestly searching for answers on the Internet.”

Bill Cowell, Founder and President, Heart Ministries

“I don’t think there is any question that we are at a moment in Church history that we will look back on in 50 years and say, “It all changed right around the year 2000 or so.” Christian mission and Internet technology, by the grace of God, locked arms together to do things that we could not have imagined. It’s God technology. We must let that sink in and change our mission strategies, our investment strategies and the way we pray.”

John Smed Founder, Prayer Current International
